Gemini G.E.L. has collaborated with famous artists nationwide to help ACT defeat George W. Bush and elect democrats in federal, state and local elections in 2004. This unique fundraising effort will reward donors with a gift of a limited edition print of their choice as a show of gratitude for a generous contribution to ACT. All of the featured pieces are signed originals commissioned expressly for America Coming Together and 100% of your contribution will benefit ACT's work in the 2004 elections. The portfolio includes prints donated by the following artists:

**John Baldessari - Cecily Brown - Frank Gehry - Jasper Johns\***  
**Ellsworth Kelly - Elizabeth Murray - Robert Rauschenberg - Susan Rothenberg**  
**Ed Ruscha - Richard Serra**

Each individual print will be available for \$1,000 (\* the Jasper Johns piece is available only as part of the entire series). Each print is signed, unframed and will be available in the month of October. Print(s) will be shipped free of charge.
